- 3C: Dental Case Finding and Navigation
- 3D: Clinical transformation around chronic disease best practices (training, screening, treatment, etc.)
- 3D: Community-based Chronic Disease Prevention and Management programs

## Care Integration

- 2A: Screening (BH/chronic disease)
- 2A: Brief counseling interventions (BH/chronic disease)
- 2A: Medication Assisted Therapy (MAT) for depression and opioids
- 2A: Registry Development
- 2A: Treat-to-Target
- 2A: Consultation (medical/psychiatric)
- 3A: Screening, Brief Intervention, and Referral to Treatment (SBIRT)
- 3A: Enhance/expand community recovery services
- 3A: Improve opioid prescribing practices
- 3B: One Key Question
- 3B: HealthySteps specialists in pediatric practices
- 3C: Integrating Oral Health in primary care

## Capacity Building

- Distribute various VBP readiness tools and resources
- Connect providers to state VBP training and technical assistance
- Improve partner readiness for MCO billing
- Invest in billing support for MCO billing
- Assess workforce readiness, capacity and needs
- Assess population health management systems, including HIT/HIE status and interoperability capacity for community-based, integrated care.
